

Lottopus Self-Service Kiosk

Lottopus Self-Service Kiosk allows lottery operators to have greater flexibility at retail level. Combining the features – stylish, elegant, user-friendly and heavy-duty, lottery sales can never be easier with Lottopus.

Lotto • Sports Totalizator • Bingo • Keno • Chance

Ready to join the work force

An idea of unattended operation and a cost-saving approach for additional sales outlets, Lottopus Self-Service Kiosk offers round the clock service. Furnished with user-centric touch screen interface, it turns lottery transactions into leisure and painless experiences. Lottopus is a truly state-of-art masterpiece and effective sales media for lottery retail applications. Players can participate various games anywhere on 7/24 basis.

Multiple games, such as Lotto, Sports Totalizator, Bingo and Keno, could be integrated into one single unit. With optional webcam and telephone handset, instant customer service becomes possible. Lottopus could also accept various modes of payment options for enhanced convenience:

- Cash (Support multiple currencies, 4-way notes acceptance)
- Magnetic Card and Smart Cards
- Contactless Cards
- Prepaid cards or membership cards

Location free

eGame's proprietary Lottopus Self-Service Kiosk works flawlessly with M.Lottery backend system or third party's backend via various communication protocols for secured transactions, offers the greatest flexibility at retail level. Promotion and advertising spaces were reserved in the unit for product promotion or commercial sponsored advertising, enhancing your corporate image and providing a side revenue stream. It is an ideal supplemental solution to fixed-location outlet with high volume of sales traffic, such as:

- Transportation terminals and stations
- Betting centers
- Post office
- Bank
- Shopping arcades
- Indoor public or municipal premises
